MEMORANDUM FOR MR. ARMSTRONG  
GENERAL CHAMBERLIN  
ADMIRAL INGLIS  
GENERAL McDONALD  
ADMIRAL GINGRICH

Subject: Production of Population and Manpower Studies

Enclosure: (A) Copy of memorandum from the Deputy Director  
of Intelligence, G-2, WDGS, dated 25 Sept.  
1947

1. Attached is a copy of a memorandum from the Military Intelligence Division, War Department General Staff on the above subject.

2. The Director of Central Intelligence will welcome any comments or suggestions from the other intelligence agencies of the Government on this subject which might assist the Central Intelligence Agency in the preparations for the required meeting and the drafting of its agenda,

3. It appears the studies which will result from the proposed program may logically fall under the basic intelligence program already initiated. However, special approach to the problem, with the participation of the interested outside agencies, may speed its solution and need not confuse the basic intelligence program.
